**Subject:** RE: RSTC funding

There is a budget amendment on the Council's 11/18/2021 agenda to allocate the County's \$1.3m towards the project.

The original budget for this project was \$988,000 but was increased to \$1.2m in FY19. Of that about \$226,306 has already been spent.

The additional \$100k required for completion of the project (an required by the pending Interlocal) will come from the Vickrey project since the parking lot to be constructed will serve both facilities.

Let me know if you have any questions.

Hi Amy, wondering if you can tell me when council approved a \$2.6 million project for the RSTC? Thank you,  
Sherri
