Subject: Planning Board

Ericka,

After much consideration I've decided that I would not like to be considered for another term on the City Planning Board. Because of a very busy work schedule that I have planned through 2019-2020 I do not see how I could effectively fulfill my role as I have in the past. I believe that attendance is very important for all levels of city government and I simply can not keep up with the same pace.

Thank you for your help in this matter.

Nathan Monk
