Management representations	<ul style="list-style-type: none"> ▪ Management has provided us with certain representations that are included in the management representation letter dated February 1, 2019.

Other Audit Matters

Changes in Accounting Policies

- During fiscal year 2018, the City adopted Government Accounting Standards Board's (GASB) Statement No. 75, *Accounting and Financial Reporting for Postretirement Benefits Other than Pensions*.

Significant or Unusual Transactions

- We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting Policies

- Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 to the financial statements.

Major Estimates and Judgments

Certain aspects of accounting are more qualitative and require more judgment and estimation by management. The following items represent the more significant qualitative areas:

- Reserve for doubtful accounts receivable
- Reserve for doubtful loans receivable
- Decisions over what to capitalize, useful lives of depreciable assets and losses on such assets not yet realized
- Measurement of the actuarial obligations for the pension plans, other post-employment benefit plans and self-insurance plan

We have assessed these areas in considering the overall fairness and completeness of the financial statements taken as a whole.
