Subject: FW: CDC Guidelines for Unsheltered Homeless

Council President and Members of City Council

Please find below information and a link that has been provided by a fellow Council Member for your review.

Please send to all council members with note of the last section dealing with homeless encampments .[People Experiencing Homelessness | COVID-19 | CDC](#)

"If individual housing options are not available, allow people who are living unsheltered or in encampments to remain where they are.

- Clearing encampments can cause people to disperse throughout the community and break connections with service providers. This increases the potential for infectious disease spread."

Respectfully,

Don Kraher
