**FNMA and FHLMC acknowledge most appraisals will not contain every specific item listed in this URAR Appraisal Desk Review form. The reviewer should judge the importance of any items marked "NO" in this report. If the appraisal as a whole sufficiently describes the subject property and supports the value conclusion, no further action is needed.**

REVIEWER'S REPORT	I have reviewed the appraisal. I do not know of any changes since the appraisal's date which would significantly affect the subject property's value.		
	<input type="checkbox"/>	The appraisal is acceptable. The market value estimate has been properly supported, and the property description is complete and accurate. While it is not necessary the appraisal meet every specific guideline, the appraisal is supported by sound reasoning and any variations from FNMA/FHLMC standards have been explained.	
	<input checked="" type="checkbox"/>	The appraisal requires additional information to be acceptable. The items requiring additional information are: <u>The appraisal is acceptable, however in the sales history section, the purpose of appraisal should more clearly spell out, perhaps relative to an extraordinary assumption, that the property is under consideration for acquisition by the City of Pensacola, under specific guidelines of the FAA, giving full value support from transactions taken outside the project area, so as to minimize the value impact of previous acquisitions in the project area.</u>	
	<input type="checkbox"/>	The appraisal is unacceptable. Market value estimates are not sufficiently supported and the subject property description is not accurate and/or complete.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they considers their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

**SCOPE OF REVIEW:** The scope of this review is limited to the information being provided by the original appraiser, and is to form an opinion as to the apparent adequacy and relevance of the data and the propriety of any adjustments to the data; form an opinion as to the appropriateness of the appraisal methods and techniques used and develop the reasons for any disagreement; form an opinion as to whether the analyses, opinions, and conclusions in the report under review are appropriate and reasonable, and develop the reasons for any disagreement.
