Subject: letter FOR Old East Hill neighborhood

Thank you Council Members for your careful consideration of this matter.

As a resident of Old East Hill, I ask that you please vote NO to the Land Development zoning amendment proposed by Dr. Laura Hall, East Hill Veterinary Hospital and Pensacola Pet Resort Too.

I ask that these businesses, located not only in a C-1 area and a historic preservation district, but also adjacent to residential properties, be required to operate under the conditions they were originally allowed to open under, which does not allow for outdoor areas for dogs. This change, were it to pass, would affect our property values and quality of life negatively.

These types of businesses should be located in an Industrial area of the city, C-3, where this type of use is permitted.

The proposed change is not for the good of the residents nor existing compatible businesses, it would benefit EHAH and PPR Too, exclusively.

Sincerely,

Myles B Sampson
813 East Jackson St.
