

# PROJECT OVERVIEW

PENSACOLA  
FLORIDA'S FIRST & FUTURE

# HOLLICE T. WILLIAMS STORMWATER PARK

# PROJECT LOCATION

BACKGROUND: I-110 CONSTRUCTION IN 1970s

# BACKGROUND: 2010 FRAMEWORK PLAN

## Imagine A New Reality

The Hollice T. Williams Greenway could be an enduring symbol for the city of Pensacola that serves our present community and generations to come. Not only would the landscape change, but also people's attitudes and perceptions about the surrounding area. This framework plan shows how the goals of the Greenway will be met. We invite you to become a part of this project – to get connected to the people, activities, and the community; to reflect on the beauty and uniqueness of our area and take part in making this a welcoming gateway into the city of Pensacola. Just imagine the possibilities. *Imagine a new reality.*

# PROJECT OBJECTIVES

WATER QUALITY

STORMWATER ATTENUATION

RECREATIONAL OPPORTUNITIES

COMMUNITY RESILIENCY

PUBLIC ART & CULTURAL HERITAGE

URBAN REVITALIZATION & CONNECTIVITY
