RE: Property identified as S60FTLTS123BLK282 New City Tract or 6814P568CA52
2320 North 14th Avenue

To Whom It May Concern:

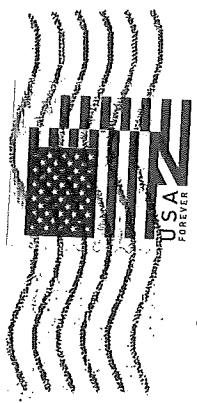

The purpose of this letter is to object to the proposed stormwater management assessment appearing before the City Council on August 8, 2019. While I appreciate the need for such as assessment, I wish to again request that homeowners who have taken steps to reduce or eliminate stormwater runoff be granted a purposeful inspection so that an appropriate fee is assessed. The imposition of a blanket assessment fee is unfair and does not recognize the mitigation efforts undertaken by homeowners.

I await your response to this objection.

Sincerely,

Mr. Alexander Kozmon
