- 1.2 Parkeon shall do its utmost to deliver good backward compatibility of the new versions of the interfaces that can be used by the Customer's applications.
- 1.3 The procedures described in Articles 1.1 and 1.2 above do not apply to urgent corrections of bugs or made for reasons of security or required directly or indirectly by Financial Institutions, or governmental or legal authorities.
- 1.4 Unavailability associated with the maintenance of the Service shall, if possible, be scheduled during periods of low traffic. In principle, this maintenance shall not exceed an average of 4 hours per month. However, this average monthly maintenance duration can be exceeded once each quarter, by at most 8 hours. Customer shall be informed in writing at least 48 hours prior to the beginning of the maintenance activities, except in the case of Article 1.3 above.

ARTICLE 2 - MONITORING OF THE SERVICE

- 2.1 The Service is monitored in two ways:
 - Active monitoring: Parkeon's automatic procedures, which periodically test the availability of the main system and its functionalities. These active monitoring processes include the alert and escalation mechanisms needed for Parkeon's technical support department to be informed as quickly as possible.
 - Passive monitoring: Customer is able to notify, 24 hours a day, an incident associated with the use of the Service. Outside the Help Desk's working hour time slots, this notification shall be made by e-mail to the address info@FLOWBIRD_APPstore.com
- 2.2 Customer undertakes not to use the active monitoring system in order to avoid a possible disturbance of the Service's performance due to unnecessary overload.

ARTICLE 3 - AVAILABILITY OF THE SERVICE

During the days and time slots in which parking is not free of charge, Parkeon shall take measures to enable:

- The User Service to be operational 24 hours a day, except for scheduled maintenance.
- Transactional flows to be recorded every day without loss of data
- The Service to be open to users during paid parking times, except for scheduled maintenance.
- The Service via the Internet site for users to be operational 24 hours a day, except for scheduled maintenance.
- The management and monitoring service via the interfaces connected to the system to be operational, Monday to Friday, from 8:00AM to 8:00PM EST, excluding company holidays.
- The service for the verifying carried out by parking enforcement officers to be operational throughout the activity period of the services of the City's Police force (working hours).
- The Service for access by law enforcement personnel to be operational 24 hours a day, except for scheduled maintenance.

Unavailability of the Service is defined as the period during which the majority of Customer's users are unable to place new authorisation or payment transactions via the Service. It is also agreed that the service shall be considered unavailable if the response time as defined in Article 4 below exceeds 60 seconds for the majority of the Customer's users.

3.1 Parkeon offers 98% availability of the Service, on a monthly basis, although the situations mentioned in Article 3.2 are excluded. Customer can, if it expressly requests this, obtain the transmission of an SLA report covering a given month, to enable it to monitor the level of performance compared to the SLA.

3.2 Unavailability excludes the following situations, which therefore do not give rise to the right to any compensation:

- Errors following the configuration based on incorrect information supplied by Customer,
- Supply by Customer or its users of incorrect or incomplete data needed by Parkeon to properly execute a transaction,
- Scheduled unavailability due to maintenance, insofar as executed in accordance with Article 1 of this SLA,
- Failures by Customer or by its users to comply with Parkeon's procedures,
- Malfunction of the equipment of Customer or of its users,
- Unavailability of telecommunications lines,
- Unavailability of Internet access,
- Unavailability of the acquirer's authorisation equipment,
- Force majeure,
- Unavailability resulting from a bug that could have been easily detected by Customer during the test phase, if it had carried out a few basic tests during the Service's pre-activation period.

3.3 Notification and beginning of an incident

Customer shall inform Parkeon of the existence of an incident:

- During working hours: by telephone and by assistance request ticket. (See [Article 5](#), Technical assistance below) The unavailability time shall commence as of the moment in which the assistance request ticket is created. In the event that the receiving procedure that permits the creation of assistance request tickets is unavailable, the unavailability time shall commence as of the telephone call to the Parkeon technical support department.
 - Outside working hours: by e-mail, only to the address info@FLOWBIRD.APPstore.com. The unavailability time is only counted over the Technical Support's time slot worked, i.e. 8:00AM to 8:00PM EST, Monday to Friday excluding company holidays.
- 3.4 If the duration of the incident is less than 15 minutes, the unavailability time is not counted for the purposes of the application of Article 3.
- 3.5 If two (2) consecutive unavailability periods of less than 15 minutes, occurring for an identical reason, are separated by a short period of availability (less than 15 minutes AND a total duration of less than the duration of the periods of unavailability), the two unavailability periods shall be considered as a single unavailability period, commencing with the beginning of the first unavailability period and ending at the end of the last unavailability period.

ARTICLE 4 - RESPONSE TIME

- 4.1 Parkeon guarantees an average monthly response time of its online payment authorization process of less than twenty (20) seconds for all of its debit or credit card transactions. However, certain exceptions could exist, associated with specific acquirer connections. In that case, Parkeon would indicate it to Customer on a case-by-case basis. This applies only to online transactions transmitted individually to the Parkeon payment service provider and excludes any transaction consolidation mechanism.
- 4.2 Response time is measured from time of receipt of the payment request by Parkeon until the sending by Parkeon of the result of the payment request to the initiator of this request.

ARTICLE 5 - TECHNICAL ASSISTANCE

Technical assistance is provided by telephone (see the service telephone numbers available on the contact page) and by e-mail, from 8:00AM until 8:00PM EST, excluding legal holidays and Company published holidays.

ARTICLE 6 - SEVERITY LEVEL AND RESOLUTION

Parkeon undertakes to restore basic functionalities, or at least, to communicate an action plan for resolution, within the time limits defined below. The time limit is assessed as of the time that Parkeon becomes aware of the problem. If the analysis of a problem concludes that the latter results from improper use of the system or of a part of the system by the Customer, Parkeon shall maintain the level of severity and shall strive to keep to the time limit defined below. In such a case, Parkeon nevertheless reserves the right to apply a specific price for this resolution and to increase the intervention time.

Severity	Description	Intervention time commitment vs. Technical Support Working hours

CRITICAL	A problem, the impact of which on Customer's commercial operations is critical, namely, if it is not possible to make parking purchases via FLOWBIRD APP.	4 hours	4 hours as of the subsequent working hours

6. The card services will commence on <date> and remain in effect for a period of 36 months. However, Parkeon may terminate the card services at any time due to (i) any failure of The Client to perform its obligations, (ii) card network or processor complaints as to Parkeon's merchant of record status, (iii) unanticipated costs relating to Parkeon's merchant of record activities or, (iv) risks associated with such activities under applicable law or regulations.
