

Project: Airport Vacation of ROW

Department:

Comments:

FIRE	There are no objections from fire. Seems to be pretty straight forward since they will be terminating all existing infrastructure already onsite.
PW/E	No comments.
InspSvcs	No comments.
ESP	Pensacola Energy has abandoned the majority of gas main within this area and east of Tippin Ave. There is one section remaining as shown in the attached map. We can schedule this for abandonment.
ECUA	In short, ECUA currently has water mains within these r/w's that served the homes that were formerly there. It is my understanding ECUA has no issues with the Airport looking to terminate the usage of those water mains under the condition that the Airport and the City coordinate with ECUA to perform capping/abandonment and other necessary disconnections. Please have the Airport/City contact ECUA Engineering to coordinate the abandonment of the water mains. ECUA will need easements for any infrastructure that it owns that is no longer situated in a public right-of-way.
FPL	FPL has overhead facilities within the ROW of Airline Dr, St Anne Dr, Douglas Ave, Sherrill Ave, and Executive Plz. See map below of existing locations.
ATT	We have facilities in the R/Ws of Douglas Ave, Sherrill Ave, Airline Dr, and St Anne Dr. Therefore, we will need easements to maintain those facilities.
