Hi Janel,

If you'd like to provide your input to City Council during tonight's meeting, here is a link to the form to do so:

<https://www.cityofpensacola.com/FormCenter/City-Clerk-3/City-Council-Leroy-Boyd-Public-Input-139>

I will also pass this on to the Council Executive, but if you'd like it to become part of the official meeting record, please follow the instructions at the link above.

Let me know if I can assist.

Thank you!

**Kaycee Lagarde**

Dear Pensacola Council Members:

I am asking you to consider those who have legitimate health reasons for not wearing a mask in public to be protected from people who have become so hateful and intolerant over this issue that they are now a threat to our peaceful community. I was threatened on your Facebook page today for simply pointing out this FACT.

It is a fundamental revocation of individual rights to FORCE people who have garden variety health problems like HBP, asthma, diabetes or Weight issues to put a hot, spit soaked face mask on their face & risk further adverse health effects from oxygen deprivation & thus compromise their own immune system over a virus that has over a 98% survival

rate. This is especially true considering that the so called “experts” already told us over & over that when people fiddle with their mask all day (AND THEY DO) & then touch everything around them, they INFECT US ALL ANYWAY. To expect the Average Joe to handle a mask like medical professionals who have YEARS of training to touch NOTHING around them so they do not break their STERILE FIELD is utterly ridiculous.

BE HONEST: Just based on simple observation, most people are completely irresponsible with them in public. They reach under their mask to pick their nose, to pop another piece of candy in their mouths... or my personal favorite, is when they rip it off entirely to answer their cell phone or yell at their kids in the middle of Walmart. They are INFECTING US ALL ANYWAY. But Because they have been FALSELY told that they are saving others by wearing a spit soaked, germ infested face covering that they are saving other people, they literally HATE people like me, who have a legitimate health reason for not wearing a mask. They hate me to the point where they will combatively confront me and IT IS DOWNRIGHT FRIGHTENING. It has created an environment of HATEFUL INTOLERANCE in our peaceful community that I have never seen in my life and I am not a young woman.

Please END THIS MADNESS NOW. Allow people to wear masks if they want to , and allow people to NOT wear a mask if they don't. The SCIENCE shows that because the VIRUS IS MICROSCOPIC (that's a FACT) it is the equivalent of putting up a chain-link fence to stop murder hornets from entering your yard. Even the hoarded N95 DOES NOT stop .0125 microns of microscopic virus particles from being spewed everywhere when you exhale through it. (Another FACT). Some of these so called “health experts” should have their licenses yanked because they obviously don't know how to handle a sterile field or they have the laughable notion that the Average Joe does.

Please stop the intolerance and hatefulness that has sadly taken over our otherwise peaceful community. Healthy people should not have to restrict their normal breathing or stay inside over a virus with over a 98% survival rate. People who are sick or who are fearful of that fact should stay home. Thank you for your time & please vote NO on the mask mandate.
