Variance Application

VARIANCE GRANTED BY THE BOARD OF ADJUSTMENT: The petitioner must secure a building permit and commence work within one hundred-eighty (180) days of the date of the granting of the variance, unless additional time is granted by the Board at that particular meeting.

JUDICIAL REVIEW OF DECISION OF THE BOARD OF ADJUSTMENT: If denied a variance by the Board, that request for a variance cannot be heard again for one year. The petitioner has thirty (30) days from the date of the meeting to appeal the decision according to Section 12-12-2 of the Land Development Code. Any person or persons, jointly or severally aggrieved by a decision of the Board may apply to the Circuit Court of the First Judicial Court of Florida. The Board, Building Inspector, or Attorney of the City of Pensacola must be notified of an appeal within five (5) days of the application being made to the Circuit Court. If a Notice of Appeal has not been received within thirty-five (35) days of the date of the meeting the variance was denied, the petitioner shall be notified by the Building Inspector that they have ten (10) days to remove or correct the violation.

515 North Davis Highway-Variance Application

1: Describe the requested variance

The variance requested is to reduce the setback to the north side of the proposed residence from 5' to 3'. This will allow room for a shared easement (driveway) between this house and 513 N Davis Highway. Both are proposed new construction.

2: Special Conditions existing on the property:

Currently the only available parking would be on the opposite side of Davis Highway. As suggested by the board members in the conceptual review meeting, the best option for safe parking is a shared driveway with parking located behind house.

3: Necessary to obtain common right:

The current parking option requires crossing a major highway, which poses a safety hazard. The requested variance will allow space for a shared driveway allowing the homeowner safe, off-street parking. The shared driveway enables parking behind the house which helps to maintain the integrity of the Historical District.

4: Reasons the variance is not detrimental to general welfare or rights of others:

The requested variance will allow for safe access to vehicles and will also help minimize pedestrian crossings on Davis Highway. The requested set back is still within that required by fire code and does not intrude on the adjacent properties. This variance will also allow a better sight line for drivers, since their view will not be impeded by cars parked in front of the house.

5. Other conditions to justify the proposed variance:

This variance will help create a safer environment for vehicles parked at the residence and driving along Davis Highway. The variance creates space necessary for a shared driveway, which allows for the front of the house to be unobstructed. This is more aesthetically pleasing adds to the charm of the Historical District.
