Section 12-6-10 (c)(2) of the City Code establishes a grant program with funds coming from the Tree Planting Trust Fund, by stating:

- a. Each grant is limited to 50 percent of the cost of the proposed project up to \$5,500.00;
- b. The tree planning trust fund must have sufficient funds for the project requested;

- c. Grant requests must be submitted to the environmental advisory board for review prior to consideration by the city’s designated arborist and city council;
- d. The city council must approve each grant request; and
- e. The funds must be utilized for providing trees or other appropriate vegetation along with associated irrigation that will help restore the tree canopy as deemed appropriate by proper planting location requirements and may enhance the natural beauty of the community, serve to deter graffiti or the defacement of public or private property and may create sound buffers where desirable.
