**SUMMARY:**

Port Staff, working with the FDOT Seaports office, coordinated securing grant funding for various port projects as part of the FDOT Seaport Investment Program. As funding becomes available, it is distributed based on existing port needs.

This grant will assist with the port's railroad modernization initiative. Several of the port's railroad systems are approaching their design life and need to be rebuilt. In addition, Hurricane Sally impacted the port in September 2020, further decreasing the remaining life of structural supporting soils and ballast of railroad track. The project will focus on three primary components. Component 1 will modernize track from the northwest corner of Warehouse 1 to the west port gate. Component 2 will modernize three sets of track east of Warehouse 1. Component 3 will modernize tracks extending from cargo yards into the breezeway between Warehouse 6 and Warehouse 8.
