SUMMARY:

The 2000 Airport Master Plan identified 65 acres of property adjacent to the northwest quadrant of the Airport for future land acquisition and development. In 2004, the Airport began the preliminary planning for the acquisition and development of this area for an Airport Commerce Park and performed an inventory of the properties in the designated area and held public meetings with both residential and business property owners.

The Airport contacted the property owner (Tanya Hatfield) of parcel E2410 and expressed an interest in purchasing the parcel located in the College Heights neighborhood. After discussions with the property owner,

an offer was made based on a fair market value appraisal and a technical review appraisal performed by independent MAI certified appraisers. The offer was subsequently accepted by the property owner.

A Florida Department of Transportation (FDOT) grant is in place that will fund 75% of the project. There was a provision within this grant that required the Airport to repay FDOT 25% of the amount drawn within 10 years. The FDOT authorized the Airport to use its prior capital purchases of property as an in-kind contribution to offset the 25% repayment provision.

This parcel contains an occupied home and therefore relocation assistance in accordance with federal relocation guidelines is required. The purchase price, relocation assistance, closing/miscellaneous costs, legal fees, 5% contingency, and moving costs are detailed in the estimated costs for the property on the following page.
