LEGISLATIVE ACTION ITEM

SPONSOR: City Council Member Sherri F. Myers

SUBJECT:

ROAD RESURFACING MORITORIUM

RECOMMENDATION:

That City Council place a 60 - day moratorium on the current street resurfacing projects currently underway and that all resurfacing projects cease immediately until the City Council hires an inspector to inspect work completed and report back to City Council. Further, that the City Council authorize the Council President to obtain the services of a qualified inspector.

HEARING REQUIRED: No Hearing Required

SUMMARY:

The City has undertaken a street resurfacing project which is currently underway. As a result of the resurfacing that has already taken place, incidents have been identified where street curbs have been covered with asphalt causing storm water to migrate onto sidewalks and adjacent properties, exacerbating flooding issues.

This moratorium would require the City to cease any further resurfacing currently underway for 60-days, during which the City Council will engage the services of a qualified inspector to inspect work that has been completed and report back to City Council with their findings and recommendations.
