SUMMARY:

In operation since 2004, ECKO Air leases approximately 28,840 square feet of land on which they constructed a hangar and office facility. During this time ECKO has subleased the area to a number of firms to provide specialized aviation services to the general aviation community. The hangar/office has been used for an aircraft avionics shop, an aircraft maintenance and repair facility, and a flight training facility. The hangar is currently vacant.

ECKO Air, LLC contacted Airport Staff requesting approval to sublease the facility to Blue Air Training LLC. Blue Air Training provides specialized contract training services to the United States Military and will use the area to house and maintain their aircraft.

Article XXXIII of the lease agreement requires written consent of the City for any sublease. The Consent By Lessor Document provides the required written consent without granting rights not contained in the original lease as amended. A separate Operating Permit between the City and Blue Air Training LLC will be executed in order to provide the financial framework for Blue Air Training LLC to operate at the Airport.
