**SUMMARY:**

On December 17, 2013, the City executed a nonbinding Memorandum of Understanding with ST Aerospace allowing the City of Pensacola to begin contract negotiations with VT Mobile Aerospace Engineering, Inc. (VT MAE) for the construction and operation of a maintenance, repair, and overhaul (MRO) facility at the Pensacola International Airport. City Council approved the negotiated lease agreement on September 9, 2014. The 173,000 sq. ft. facility officially opened in June 2018 and is on the way to creating 400 new high-wage jobs for the area.

The Mayor and Staff have a longer term strategy to grow the MRO capacity, sometimes referred to as “Project Titan”. A second hangar similar in size and configuration to the first hangar, a possible support services center, an aircraft apron and automobile parking would be constructed on 16 acres of Airport property directly south of the first hangar. The construction of this second hangar area was otherwise contemplated and accounted for during the development process for the first hangar, and is referenced in the current real property lease with VT MAE. Additional facilities consisting of two hangars, each approximately 191,000 sq. ft., a 100,000 sq. ft. support services center, a 120,000 sq. ft. administrative office building, aircraft aprons, and automobile parking would also be constructed on approximately 50 acres of Airport property adjacent to Tippen Avenue on the west side of the Airport. It is expected that the project will create a minimum of 1,325 full-time jobs with an annual average salary of \$44,461, excluding benefits. The total project cost of \$210,125,000 is funded by a combination of VT MAE investment, State and Federal grants, and local funds.

To ensure sufficient cash is available to pay project cost until Federal, State, local and private funds become available, City Staff, upon consultation with the City’s Financial Advisor and Bond Counsel, explored various financing structures to bridge any potential shortfalls. The structure presented in the attached resolution authorizes the Mayor to award a taxable, not to exceed \$20,000,000, draw-down bank loan with a maturity date not to exceed October 1, 2044, a market rate, variable rate and/or fixed interest rate not to exceed 6% per annum and a security payable solely by a covenant to budget and appropriate Non Ad-Valorem Revenues of the City of Pensacola. While it is not certain the City will ultimately utilize this financing, by authorizing the Mayor to award the sale of a note in relation to this project puts the City in the best position to ensure that there are no delays in construction due to funding requirements for the project.

The financing team consists of Julie Santamaria, the City’s Financial Advisor with RBC Capital Markets, LLC and Duane Draper, Esq., and Randy Clement, Esq., each with Bryant Miller Olive, the City’s Bond Counsel.
