LEGISLATIVE ACTION ITEM

SPONSOR: Grover C. Robinson, IV, Mayor

SUBJECT:

SUPPLEMENTAL BUDGET RESOLUTION NO. 2020-31 - FY20 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT (JAG) PROGRAM: STATE

RECOMMENDATION:

That City Council adopt Supplemental Budget Resolution No. 2020-31.

A RESOLUTION AUTHORIZING AND MAKING REVISIONS AND APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2020; PROVIDING FOR AN EFFECTIVE DATE.

HEARING REQUIRED: No Hearing Required

SUMMARY:

The Pensacola Police Department (PPD) will be submitting a grant application to the U.S. Department of Justice, Bureau of Assistance, under the Edward Byrne Memorial Justice Assistance Grant (JAG) Formula (State) to utilize grant funding to provide overtime for the officers and to purchase speed measuring devices to increase enforcement of traffic laws in high-crash areas.

The PPD has seen an increase in traffic crashes and the severity of injury crashes within the city

limits. Although speed is almost always a factor of vehicle crashes, excessive speed always adds to the severity of injuries during the vehicle crashes. Traffic data from 2017 to 2018 shows an overall increase from 2,315, in 2017, to 2,359, in 2018. From January 1, until April 20, 2019, the statistics already show 653 traffic crash incidents. This data includes fatal crashes, vehicle crashes with personal injury and property damage, vehicle crashes involving private property, leaving the scene of a crash, leaving the scene of a crash with injuries and/or death, and pedestrian injuries/fatalities. With equipment and the additional overtime hours, this will allow for a higher concentration of officers to enforce speed limits in high crash areas, enforcing the legal limits in those areas, in turn, reduce the number of and severity of crashes within the city limits.

Currently, the budget for the City of Pensacola does not provide funding for overtime to officers responsible for traffic enforcement or to purchase speed measuring devices. Grant funding will provide the assistance necessary to ensure the uninterrupted delivery of police services through effective traffic enforcement.

The listed additional equipment will allow more officers to enforce the legal speed limits within the city limits. This equipment is needed to enforce the legal speed limits and allow officers to demonstrate and document that the estimated speeds recorded by offending drivers are accurate and clearly a violation before the vehicle can be stopped.

Providing the officers with the equipment and the additional overtime hours will allow for a higher concentration of officers to enforce speed limits in high crash areas and reduce the number of and severity of crashes within the city limits.

Goals are to:

Increase traffic enforcement to enforce speed and traffic signal violations

Increase traffic enforcement to reduce traffic crashes which cause personal injury and property damage

The motorcycle mounted radar speed measuring devices will provide motor officers the ability to measure speeds from stationary positions and while moving in traffic.

The overtime hours will allow officers to focus on regular traffic flow throughout the city and monitor intersections with high traffic incidents.

PRIOR ACTION:

None

FUNDING:

Budget: \$ 73,132.00

Actual: \$ 49,132.00 - salaries & benefits
 24,000.00 - speed measuring devices
 \$ 73,132.00

FINANCIAL IMPACT:

The estimated grant award for the FY20 Edward Byrne Memorial Justice Assistance (JAG) Program: State is \$73,132.00, based on the 2020 Florida Local JAG Allocations. Projects to be funded from this grant award do not require a local match. Approval of the supplemental budget resolution will appropriate funding for this grant.

The City of Pensacola will procure the equipment following the City's purchasing guidelines using a sole source vendor.
