SUBJECT:

ARB Resolution on the Review of Solar Energy Systems

BACKGROUND:

In May 2021, the Board requested that a ARB resolution / policy be drafted which would allow new solar energy systems to be reviewed through an abbreviated review process. This would allow such requests to be internally reviewed by a board architect and staff from the Historic Trust without the need for a full board review. However, if agreement cannot be reached as it pertains to the request or if the request does not satisfy certain sections of ordinance for the historic and preservation land use districts, the request can still be referred to the full board for review.

Please find attached all relevant documentation for your review.
