115 W. Brainerd Street - Variance  
North Hill Preservation District / Zone PR-1AAA  
Variance to Reduce the Side Yard Setback for an Accessory Structure

### BACKGROUND:

Tim Daniel is seeking a variance to reduce the side yard setback requirements of Section 12-3-55(4) a of the City of Pensacola Land Development Code. The variance request is to decrease the minimum west side yard setback from 9 feet to 4 feet to accommodate an addition to an existing accessory dwelling unit. The current structure sits approximately 4'-7 1/2" away from the property line. A conceptual review of the addition is also under consideration with this item.

Please find attached all relevant documentation for your review.
