SUMMARY:

Baars Park is a well-preserved public greenspace. The natural topography is an integral part of the watershed, and mature trees provide a glimpse into native Pensacola.

This item seeks to augment protections for these natural features that cannot be fabricated or replaced. Over the past 20 years, Pensacola has taken significant strides to improve water quality along this water body. The trees this item seeks to preserve protect against erosion and serve an invaluable role in the watershed.

The proposed ordinance draft has been revised for adoption on second reading providing clarification of the ordinance title adding "Restricting Development at Baars Park".
