RECOMMENDATION:

Teddy McBride is requesting approval to replace damaged wood siding with fiber cement at a contributing structure. In January 2018, Mr. McBride was issued a permit to replace the wood siding on the rear of the house with Hardie board fiber cement siding. Although the permit was issued and closed, it did not receive review or approval by ARB. The applicant was seeking approval to replace the remaining wood siding (except for on the front of the house) with fiber cement siding matching the January 2018 product.
